

**Objective:** Create your website. Monitor project timelines to meet your deadlines. Collaborate with staff and available resources to produce quality, successful websites.

**Profile:** Well-experienced website developer, designer, programmer, art editor, marketer, copywriter, project manager, who understands site creation from the idea conception stage to the launch of a new campaign.

**Portfolio:** [National Showroom Gallery](#): events schedule, contact info, driving directions.  
[Appliance Voltage Table](#): electrical requirements for safe installation of appliances.  
[My Music Collection](#): Select a genre, then sort by any of the columns  
[That '70s Family](#): Gallery demonstrating javascript, art work manipulation, image optimization and...humility.  
[Miele Home Page](#): Flash movie, transitioning between products  
[Slide show](#): Javascript and ASP-created slide show, transitions between cooking products.  
**Flash work:** [\(1\)](#), [\(2\)](#), [\(3\)](#) [Photo Shop](#), Illustrator  
 Programming skills: html, [css](#), [Frames](#), [image maps](#), [JavaScript](#), [SQL](#), [VBScript](#), [ADO](#), [ASP](#), [XML & XSL](#), [Cookies](#), DHTML, XHTML, MS-IIS. Familiarity with Oracle PL/SQL, VB.

**Strengths:** **Website Management:** site design, content layout, copy editing and art work manipulation. Back-end: database development, programming dynamic pages, IIS web server administration to set up sites. DNS management of more than 35 domain names. Knowledge of sub or third-level domain name implementation as well.

**Project management:** assess department / client's needs, research solutions, develop acknowledgement-of-needs document, use that to develop proposal. Monitor resources and stay within time and budgetary constraints in order to accomplish objectives.

**Examples:**

<a href="#">Closed, intranet site:</a>	Portal for employee applications
<a href="#">Dealer locator:</a>	Resource for providing dealer maps to consumers
Parts Application:	Allows dealers to buy parts online
Showroom Traffic:	Allows showroom staff to track and monitor sales leads

**Sales Administration:** manage project development of on-line applications for outside sales force, used to administer both phone-based and web-based sales leads. Managed a project for national showrooms to track traffic (leads) into the showroom and at dealer locations.

**Brand patrol:** monitored dealer websites and enforced Marketing standards I created and drafted into the Miele-Dealer Agreement.
